

HEALTH RESEARCH GRANTS FULL APPLICATION PROJECT SUMMARY

Programme	<i>Defaults to the programme you are applying for</i>
Funding Opportunity	<i>Defaults to the stream of funding you are applying for</i>
Call	<i>Defaults to the call you are applying for</i>

Host Organisation	
Research Title <i>Your full project title (Limit 200 characters)</i>	
Project Start Date (DD/MM/YYYY)	
Project End Date (DD/MM/YYYY)	
Total Research Costs Requested	

Scientific Abstract <i>(Limit 3500 characters)</i>
Please provide a structured expert summary which outlines the background to the research, the aims of the work, including the question to be addressed by this research, the plan of investigation and a summary of the potential benefits to patients, service users, carers and/or the organisation and delivery of effective healthcare services in Wales.

Summary (in Plain English) <i>(Limit 3500 characters)</i>
When writing your summary please include the following information (where appropriate):
Aim(s) of the research
Background to the research, specifically what is the problem being addressed and why is this research important
What you hope to discover
Patient and public involvement
Dissemination

Research Plan *(Limit 28000 characters)*

Broadly, the detailed research plan should follow the format set out as follows:

Background and Rationale

Evidence Explaining why this Research is Needed Now

Aims and Objectives

Research Plan

Design and Theoretical/Conceptual Framework

Target Population

Inclusion/Exclusion Criteria

Setting/Context

Search Strategy (in the case of projects involving evidence synthesis)

Sampling

Data Collection

Data Analysis

Dissemination and Projected Outputs

Project Management

Expertise and Justification of Support Required

PROJECT DETAILS

See the funding opportunity guidance when answering any of these questions.

Aims and Objectives *(Limit 3500 characters)*

Please summarise the key aims and objectives of your project and provide a concise statement of the proposed research.

Application Type *(Limit 50 characters)*

Please state the type of application you are submitting; primary research, secondary research or evidence synthesis. You should also state if your application is for a pilot or feasibility study.

Background and Rationale *(Limit 5000 characters)*

What is the problem being addressed? Why is the research important to patients, service users, carers and/or the organisation and delivery of effective healthcare services in Wales?

Priority Area(s) *(Limit 2000 characters)*

Please indicate which of the Welsh Government priority areas your project addresses: Prevention and early intervention; Chronic conditions management; Service organisation and delivery and if you are applying in response to a Health and Care Research Wales Themed Call.

Public Involvement - Active Involvement Plan and Approach *(Limit 2000 characters)*

If members of the public were actively involved in identifying the research topic and preparing this application or if active involvement is planned, please give more details.

Public Involvement - No Plans for Involvement *(Limit 1000 characters)*

If there are no plans for active involvement, please explain why it is not thought necessary.

Management and Governance - Ethical Issues *(Limit 3000 characters)*

Does the proposed research raise any ethical issues? If yes, discuss how the issues will be addressed and please detail how and when you intend to get ethical review completed. If no, please justify.

History of Application *(Limit 1500 characters)*

Has this application, or a similar application, previously been submitted to this or any other funding body?

Timetable and Milestones *(Limit 2000 characters)*

Please provide a concise summary of the project plan in the form of a monthly project timetable.

IP- Background *(Limit 3000 characters)*

What background Intellectual Property will your research use? How will you ensure the correct permissions/licences are obtained?

IP - Production and Management *(Limit 3000 characters)*

What Intellectual Property will be produced or improved during the proposed research and how will this be managed?

PROJECT CODING

UKCRC Research Type

UKCRC Research Activity Codes

Add any that apply to the research

See HRCS Research Activity Codes information at <http://www.hrcsonline.net/rac/overview>

Health and Care Research Wales Monitoring

UKCRC Health Categories

Select all that apply to the research. See information at <http://www.hrcsonline.net/hc/overview>

UPLOADS

Uploads

The following file(s) are considered **mandatory** to submission, please attach;

- Budget and Justification (*See template from website page*)
- Lead Applicant CV (*See template from website page*)
- Project Plan or Flowchart

The following file(s) are considered **non-mandatory** to submission; if you wish, please attach;

- Co-Applicant CV (one per co-applicant) (*See template from website page*)
- Letters of Support
- References
- Suggested Referees (*See template from website page*)

ACKNOWLEDGEMENT

Agreement to the Terms and Conditions

Acceptance Statement is:

In confirming your role as Lead Applicant in this application you confirm that the information given in this form is complete and correct and that you take full responsibility for the accuracy of this submission. You confirm that your Co-applicants and Supporting Roles mentioned on this application have been given access to the application and accepted their role in this submission. You shall be actively engaged in, and in day to day control of, the project. You confirm that you understand that progress reports will be required by the funding programme and that no substantive variation in the scheme as outlined in the application will be permitted without prior reference to the funding programme.
